ADAMS COUNTY BOY DIED AT
CAMP TAYLOR

Frank Little died at Camp Taylor
Sunday, with heart trouble. He was
the son of Dallas Little, of Ginger
Ridge, and left Sunday morning, May
26, with 65 other young men to go in-
to training at Camp Taylor. Mr. Lit-
tle was notified Saturday morning of
his son's illness and left that after-
noon for his bedside and after arriv-
ing at the camp found the boy much
improved and was returning home
Monday when he received a message
of the boy's death. Besides the father,
five brothers and one sister are
left to mourn. One brother, Kirk Lit-
tle, is now in France while another
brother, Harvey Little, is at Camp
Sherman, Chillicothe. Frank was 22
years old and is the first Adams
county boy to die while in the ser-
vice.

WILL ADDRESS BIBLE CLASS

Mr. Swink, Superintendent of the
Coit-Alber Chautauqua, will address
the Bible Class of the Third Street M.
E. Church Sunday School tomorrow
morning. A cordial invitation is ex-
tended for every man in the city to
be present. Be sure to hear this gen-
tleman, it will do you good.

OH YOU CHICKENS!

They Are Assessed at 50 Cents and
Turkeys at \$1 Each By State
Tax Commissioners.

Every chicken in Kentucky, from
frying size up, must be assessed July
1 at 50c, every turkey at \$1 and ev-
ery duck and guinea at 25c. This
uniform value for assessing fowls
was agreed on at the County Tax
Commissioners' conference at Frank-
fort Thursday.

The County Tax Commissioner who
best assesses his county will get \$100
in gold. This prize was offered by W.
O. Davis, of Versailles, and M. M. Lo-
gan, Chairman of the Tax Commis-
sion.

The importance of uniformity in as-
sessment was explained by W. O.
Davis, of Versailles, in an address be-
fore the Commissioners. Mr. Davis
was a member of the 1914 Special Tax
Commission and is familiar with the
tax laws of this and other states.

The duty of the County Commis-
sioners to the state and to the public,
was the subject of a paper submitted
by Senator Hite Haffaker, of Louis-
ville.

During the discussion Chairman Lo-
gan advised the Tax Commissioners
to look out for booze in local option
territory.

"Most of the state is dry, you
know," said Logan, "and the taxpay-
ers who like their toddy likely have a
barrel or so stored away for private
use. This whiskey is taxable."

Distillery machinery, Logan said,
was worth little more than junk, and
should be so assessed, as he added it
would likely never be used again for
distilling whiskey. It was agreed that
all property paying taxes to the state
must be assessed at 100 per cent and
other property this year will be as-
sessed at 80 per cent of its cash value.

Letters were sent to the County
Judges by the State Tax Commission,
directing them to prepare an office
and furnish it for each County Tax
Commissioner.

Bishop Lewis W. Burton will be the
guest of Mrs. E. C. Plister and daughter,
Miss Amy Plister, of West Third
street, during his stay in this city.

Thomas Randall Wood, infant son
of Mr. and Mrs. Gordon Wood, of East
Second street, died this morning at
1:30 o'clock.

BOLSHEVIK REGIME OVER-
THROWN AT MOSCOW

City Taken By Gen. Korniloff, Aided
By Hans—Government Has Fall-
en, Says Unconfirmed Copen-
hagen Dispatch and Grand
Duke Nicholas Pro-
claimed Emperor.

London, June 28—According to un-
confirmed reports today the Bolshe-
viki Government in Moscow has been
overthrown, says a dispatch to the
Exchange Telegraph Company from
Copenhagen. Moscow, the reports add,
has been captured by Gen. Korniloff,
supported by German troops.

Advice from the same sources as-
sert that Grand Duke Nicholas has
been proclaimed Emperor. Nikolai
Lenine, the Premier and Leon Troz-
ky, the Minister of War, are said to
have fled to the Murman coast.

Gen. Kaledines is said to have co-
operated with Gen. Korniloff in the
capture of Moscow.

The Copenhagen newspapers, the
agency dispatch adds, gives promi-
seness to a Berlin dispatch quoting
the Tages Zeitung of that place as
saying it had received a message from
its Petrograd correspondent reading
as follows:

"It is believed here (Petrograd)
that Bolsheviki Government will
soon be overthrown and that Keren-
sky is the man of the future in Rus-
sia."

The advices declare that the sup-
porters of Grand Duke Nicholas have
overthrown the Soviets throughout
the Siberian provinces of Irkutsk,
Blagoveshchensk and Khabarovsk.

The defeat of the Bolsheviki is said
to have been made possible by the
victories of the Czech-Slovak forces
and the treachery of the Red Guard.
Several detachments of the Red
Guard are declared to have murdered
their officers and then surrendered.

The Exchange Telegraph Company
publishes its message containing re-
ports of the Bolsheviki overthrow and
the accompanying details, "with re-
serve," and points out that the infor-
mation emanates mainly from Ger-
man sources and therefore should be
received with caution.

Hungarian Army Starts Revolt

Paris, June 28—There have been
rebellious outbreaks among the gar-
rison of the cities of Győr and Pecs,
Hungary, as a result of which 2,000 of
the military involved in the mutiny
have been condemned to death, ac-
cording to reports received by the
Math today.

Both Austria and Hungary are af-
fected by the revolutionary move-
ment, which is said to be in pro-
gress on a large scale in Austria; the
newspaper's advices declare. The
spirit of revolt is said to be strongly
pervasive in the army. Violent dem-
onstrations are reported to have oc-
curred in numerous cities.

Pecs is the Hungarian name for
the city of Pankirchen, 105 miles
southwest of Budapest. The city has
a population of about 45,000. Győr,
more commonly known as Raab, is a
city of some 28,000 population, six-
ty-seven miles northwest of Budapest.

GERMANTOWN FAIR

Will Be Held This Year on August 28,
29, 30 and 31—Will Be a
Hamdinger.

It has been circulated around that
there will be no old reliable Ger-
mantown Fair this year. This is a big
mistake. This fair will certainly be
held this year, the dates being Aug-
ust 28, 29, 30 and 31, and from the
splendid program and premium list
we can assure the people that this
will be one of the best ever held. A
large amount of the premiums will be
paid in War and Thrift Stamps.

RECEIVED ITS QUOTA

The Mason County Chapter of the
A. R. C. has received its quota from
the Lake Division. There are some
changes in the knitting and the di-
rections will be ready for distribu-
tion next week. The work for the
local chapter has been listed as fol-
lows:

250 girls dresses.
200 pinafores.
50 chemises.
25 layettes.
250 sweaters.
250 helmets.
1500 socks.

Miss Hafford has sent the order to
the Lake Division and the material
will soon be here also the patterns for
making the garments.

The finished work must be com-
pleted by the first of September so the
workers must get busy and not fall
behind with the order.

The directions for knitted work
must be followed as this is the order
from headquarters.

Mrs. Mary D. Brunel and daughter,
Miss Ethel, have returned to their
home on East Second street, after a
two weeks' visit to relatives at Cleve-
land, Ohio.

CLEANING CHANNEL AT MAN-
CHESTER

The Government boat Miami and
the Dredge boat Indiana are clearing
the channel in the river in front of
Manchester and it is a most interest-
ing piece of machinery. The dredge
is anchored out in the river some dis-

the shore is laid on small flats—after
the real pontoon fashion. The mud
and gravel taken from the channel is
forced through the large pipe and de-
posited on the Kentucky shore.

WORTHY CANDIDATES

Chairman Hays of the Republican national committee said in his speech at Philadelphia Friday afternoon:

The duty of the party's membership, this year above all other times, is to look to the quality of our candidates. They must be worthy.

They must be worthy—that's our politics. We naturally think they are likely to be found in the Republican party. If not, what then? Vote for a candidate on the opposing ticket? Right there is where the crisis comes in, and especially is it so if the candidate is a Democratic organization man. That makes a serious alternative, for no man is really worthy who is an organization man; that is, a man on a state, put there by professional politicians. The candidate must be worthy, says the chairman. See to that first and last. And to defer, none that, find out who are behind a candidacy, and why are they there.

Fuel Administrator Garfield has stated emphatically that a stop must be put to reported waste of fuel-generated electricity. Reports from various sources have reached the Fuel Administration that theaters and other establishments operating display signs and outdoor lights are permitting them to run during daylight hours, and that both municipalities and individuals have returned to the habit of excessive illumination.

Unless official reports show that display illuminations are kept within reasonable bounds, and are limited to hours of darkness, stringent regulations will be ordered against all forms of outdoor lighting and display illumination.

WILL BE DRY

Committee Plan Will End Whiskey and Wine Sale After June 30, 1919, and Beer Will Go Sooner.

Washington, June 27.—The Senate Agriculture Committee today agreed upon an amendment to the \$11,000,000 Emergency Agricultural Appropriation bill providing for national prohibition.

Under the amendment the manufacture and sale of whiskey and wine would be prohibited after June 30, 1919, and the manufacture and sale of beer three months after the final approval of the bill by the President.

The amendment was framed by Senator Norris, of Nebraska, as a substitute for the pending one by Senator Jones, of Washington. The Jones amendment would have brought about absolute prohibition immediately upon enactment of the legislation. The Norris compromise was adopted by the committee by a vote of 8 to 3. Those opposed to the Norris amendment attempted to have it changed so as to permit the sale of beer six months after its passage and later proposed four months. Both efforts, however, resulted in defeat.

Chairman Gore said the bill with the new amendment would be reported to the Senate tomorrow, and that an effort would be made to bring it up for consideration at once.

HOW THE SOUTH IS BEGINNING TO FEED ITSELF

Washington—There used to be a story about a southern farmer who bought his beans in Boston, his furniture in Grand Rapids, his food in Cincinnati, and his feed in St. Louis, and all he raised on his farm was a pack of dogs, but that story, according to reports coming in every day to the United States Department of Agriculture, is getting so far from the truth that it hardly deserves a place in the wildest fiction.

For the South is beginning to feed itself. More than that, it is beginning to help feed other sections of the country. The South is divorcing itself from its dependence on the one-crop system, and is raising food and feed as well as cotton in large quantities.

Furthermore—and what is of immediate 1918 importance—the South by feeding itself is decreasing the drain on the North and West and is releasing products of these sections to be shipped across the ocean as liberty food.

Hogs Where Hogs Never Grew Before
Here are some items that prove the evolution—almost the revolution—in southern agriculture:

Until four years ago not a single carload of hogs was shipped from 17 counties in southern Alabama. In the year that ended April 1, 1918, the carloads of hogs shipped from the same 17 counties numbered 2,352. The in-

crease in the value of these hogs is estimated to be more than \$1,000,000. Formerly this section produced little except cotton. Now it is contributing to the food supplies of the Nation. It is raising peanuts, velvet beans, corn, oats, and winter grazing crops and has permanent pastures of Bermuda grass and lespedeza. These forage crops are transformed into pork by the direct feeding route.

Leguminous Crops Increasing
In the census year 1909 only 12,560 acres were planted to velvet beans in the South. Suddenly southern farmers discovered the effectiveness of this plant as forage and feed for live stock and in improving soil. In 1917 the velvet bean crop covered 4,600,000 acres, all in the South.

Soy beans grew on only 1,629 acres in 1909, but this crop advanced so rapidly in appreciation that its area in 1917 was estimated at half a million acres. Cowpeas which have been planted in the South for many years are estimated to have tripled in acreage since 1909.

In North Carolina and Virginia the area planted to peanuts remained about the same as in 1909, but it has increased six-fold in the Georgia-Florida-Alabama field and eight-fold in Texas and adjoining States. The total acreage reported for the census year was below a million. In 1917 it had expanded to more than three and one-fourth millions.

The area of velvet and soy beans and peanuts in 1909 was 834,000 acres. According to estimates of the Bureau of Crop Estimates of the Department of Agriculture, the total for 1917 was 8,250,000 acres, mostly in the South. The acreage of these three legumes has been multiplied 11 times in eight years and in the same time the area of cowpeas, the number of acres of which has not been ascertained has tripled.

Benefits to South
The significance of the change that southern agriculture is undergoing through the enormous expansion of the acreage of these four legumes can be expressed in important results. One is the improvement of a soil much in need of humus and nitrogen, both of which these crops supply. Animal feeds and forage are produced in great quantities in a region that hitherto has brought them in from the North Central States. These crops are meat and milk producers on farms that were consumers of surplus meat and dairy products shipped from northern States. A notable increase of live stock on southern farms diminishes the economic weakness of one-crop farming and means a more self-sustaining and independent agriculture.

Work of County Agents
The county agents of the Department of Agriculture and the State agricultural colleges have been instrumental not only in introducing the growing of these crops and the raising of live stock, but in teaching farmers how to do it and often how to ship live stock cooperatively.

SCHOOLS TO ORGANIZE

Superintendent Gilbert Urges the Officers and Teachers to Get Busy For War and Thrift Stamps.

The following calls have been issued to the Superintendents, Trustees and Teachers of this state by State Superintendent of Public Instruction V. O. Gilbert.

Frankfort, June 14, 1918.
My dear Trustee:
I am calling for volunteers, and I am sure that you are ready and willing to volunteer in order to do anything that is within your power to make sure that our boys in France are properly cared for.

In order that you and I, and our children who are to come after us, may enjoy the freedom bought with the blood of our forefathers, many of our best young men are baring their breasts to the shot and shell of the enemy on the Western Battle Front. If these boys of ours place their bodies between us and danger and suffer the shock of battle, torn and shattered bodies—even death, it would be the height of ingratitude, even treason, if we should fail to do everything that is possible to equip and properly care them up.

The United States Government has offered each of us a splendid opportunity to render a real service. Whether we have much or little money, we can buy Thrift Savings Stamps. This is a good investment, and especially valuable as an educational measure to teach the children of the State the lesson of Thrift. I expect every child of school age to become the owner of one or more War Savings Certificates by December 25, 1918. The special drive is on for June 28. I am enclosing a list of the War Savings Chairmen and the quota apportioned to each county. I want you, immediately upon receipt of this, to go to your County Chairman or send him a card, volunteering your services to help organize your school district thoroughly, to the end that every citizen in the district may take part in this service.

Do this at once, remembering that your home, your children and all that you hold dear would be jeopardized if the Germans win.

Very truly yours,
V. O. GILBERT,
State Superintendent.

Frankfort, June 20, 1918.
To the Teachers of Kentucky:

If one citizen of Kentucky is under more obligations than another to lead in every movement looking toward the teaching of love of country and reverence for our institutions, it is the teacher.

We are facing the most radical and dangerous period, not only of our national history but of the world's history. This world conflict must not only be won for freedom and Democracy, but the generations coming on must be taught and trained to preserve and use this greater and more far-reaching liberty that is to come to the earth after Autocracy is eternally crushed.

I purpose that the whole system of public education of the State of Kentucky shall be directed along the lines of a systematic and voluntary teaching of Democracy, and I am asking that every teacher in the State, from the President of the University to the teacher of the smallest school, volunteer that every effort be put forth during the school year 1918-19 to lay broad and deep and thoroughly the foundation for the training of our young people in true, righteous citizenship.

The Government is offering its splendid opportunities to teach patriotism by doing, but the most appealing of these opportunities, from an educational standpoint, is the opportunity to invest in War Savings Certificates. This not only enables us to perform a patriotic service for our boys at the front who are pouring out their blood on the fields of France, but enables us to teach Thrift to the rising generation. Our children must learn thoroughly the lessons of industry and Thrift if they would maintain the freedom won to the world after such a tremendous cost and sacrifice as is now being made on the Western Front. I know that every teacher will gladly volunteer to carry out this purpose; that

every child of school age shall before December 25, 1918, own one or more War Savings Certificates.

Yours very truly,
V. O. GILBERT,
State Superintendent.

Frankfort, June 20, 1918.
To the County Superintendent.

Dear Sir:
This is the day of volunteers and we are called upon to make many sacrifices upon the altar of freedom, and yet there is so much of glory in doing our duty that the sacrifice becomes a genuine pleasure.

I am asking that you volunteer with your whole might and main in this Thrift Savings Campaign. The Drive will begin June 28, and I am hoping that every child within the school age will become the proud owner of at least one War Savings Certificate. I have written to the trustees about this matter and an enclosing copy of my letter to them. I am also enclosing a letter addressed to the teachers. Will you kindly read or have this read to them at the Institute. Our teacher mailing list is an old one and we believe more good will be done by having the letter read at the Institute, as well as considerable expense saved.

There has been no Government War Work Campaign that has in it so much helpfulness as the coming drive to sell Thrift Stamps. If it were not the best possible investment, it would be worth while as an educational movement to teach our children the lesson of Thrift.

I am enclosing list of all County Chairmen in this Campaign, showing also the amount of each county's quota. I hope you will see to it, as the educational leader in your county, that every school district is organized thoroughly for this drive. If you have not already done so, confer with your County Chairman and volunteer your services. Put the schools and the school people body and soul into the Drive. I know that I shall not be disappointed in your effort.

Yours very truly,
V. O. GILBERT,
State Superintendent.

GRANDSTAND AT MOLINE TO SEAT 25000 PEOPLE

Moline, Ill., June 28.—Announcement was made here today that a special grandstand capable of seating 25,000 people will be constructed in front of the race course on Campbell's Island for the big annual regatta of the Mississippi Valley Power Boat Association, to be held here July 4th, 5th and 6th.

In view of the fact that frequent boat races are held over this same course each season by the Moline Launch Club, under whose auspices the big race meet is being held this year, the grand stand is to be a permanent affair.

The city of Moline expects several hundred visiting boats for the meet and arrangements are being made for camping facilities on Campbell's Island. This is one of the most beautiful spots the length of the Mississippi river and there are scores of cottages of summer resorters and many acres of tent room for campers. Supplies of all kinds are obtainable on the island, which also maintains a large summer resort hotel. A special dancing floor is being provided at Campbell's Island Inn and there will be a dancing party for visiting boatmen every evening during the three days of the regatta. There will be daily band concerts during periods when the race boats are not in action.

Moline is preparing to entertain between 50,000 and 75,000 visitors and a large number of race boats representing many of the important cities of the Mississippi and Illinois river valleys have been entered in the event. The principal feature will be a championship contest for the national speed title between "Miss Detroit 11", present world champion, and "Miss Minneapolis", world champion in 1917. Both boats are capable of running at better than 60 miles an hour.

TERRIBLY SWOLLEN

Suffering Described As Torture Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Theodor's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Theodor's Black-Draught."

Theodor's Black-Draught will help you to keep fit, ready for the day's work. Try it!

"SOME FIDDLER."

Crawford Adams Says Hard Work and Not Historic Ancestry, Has Brought Him Success.

"Adams is a plain, old-fashioned, American name, and my ancestors run back into American history quite a ways. I don't know exactly how I am hooked up in relationship with some of the early Adams, who wrote their name large in American annals, but I do know that when I first started on my violin career there were a lot of folks who thought that a fellow with a name like 'Adams' never could succeed as an artist. They had a suspicion that to be a first-class violinist a fellow ought to have a name which ends with a few 's's,' and that sound more like a sneeze than an attempt to pronounce an individual's name. I didn't think so, and so I plugged ahead, and folks nowadays are kind enough to say that I am 'some fiddler'."

So says Crawford Adams, the wonder violinist who heads the Crawford Adams Company, appearing on the Chautauqua. And Adams is "some fiddler." He literally makes the violin talk. He was on the Chautauqua circuit last summer, and was a sensation, and has been repeated this year by reason of an almost universal demand.

COMEDY IS NEEDED

Has a Place in Building National Morale, Says Percival Vivian.

That good Drama will never lose its hold upon the affections of the people, and that Comedy is all essential in time of war, is the belief of Percival Vivian, who is directing the Ben Greet Players.

The Ben Greet Players, says Mr. Vivian, "have earned their right to be spoken of as the most popular theatrical company in America. They have appeared in practically every city in this country, in addition to many Chautauqua tours in which they have invaded smaller communities, and their record of success has been surpassed by no organization doing platform work. This is due as much to the elemental appeal of the productions which they have given as it is to the thorough craftsmanship with which these productions are staged and acted. To be recalled over and over again to the same Chautauqua for several seasons is a rather usual thing with the Ben Greet."

Ruth Vivian, taking a prominent part in "The Ben Greet Players," says Mr. Vivian, "have earned their right to be spoken of as the most popular theatrical company in America. They have appeared in practically every city in this country, in addition to many Chautauqua tours in which they have invaded smaller communities, and their record of success has been surpassed by no organization doing platform work. This is due as much to the elemental appeal of the productions which they have given as it is to the thorough craftsmanship with which these productions are staged and acted. To be recalled over and over again to the same Chautauqua for several seasons is a rather usual thing with the Ben Greet."

WORLD'S GREATEST REPORTER.

Irvin S. Cobb, Holder of That Title, Coming to Speak at Chautauqua.

The Chautauqua is rendering a distinct service when it is making it possible for the people of this community to hear such speakers as Irvin S. Cobb, who will speak upon the closing day of the Chautauqua.

Down in New York, and in the eastern cities, Irvin S. Cobb is the most sought-after after-dinner speaker available. He never joins a dinner or a luncheon group without adding to the hilarity of the occasion. He treats even the most serious subjects humorously, and so we may expect, when he comes to the Chautauqua, to speak on his most recent experiences on the fighting fronts in France and Flanders, a verbal picture of the war which will soften its grim tragedy with touches of humanity.

Mr. Cobb is unquestionably the greatest war reporter in the world today, and he is coming to the Chautauqua fresh from a rich experience on the Western Front, where he has been reporting the war for the Saturday Evening Post. His appearance here will be the biggest event of the season.

The one thing no woman is stingy about is a secret.

FOREIGN TRADE AGAIN CLIMBING
American foreign trade for 1918 reached its highest point in May, according to figures announced today by the Bureau of Foreign and Domestic Commerce, Department of Commerce. Exports totaled \$52,600,000, an increase of \$52,000,000 over April, while imports mounted to \$322,000,000, an increase of \$44,000,000 over the previous month. This is the highest monthly total for imports and the fourth highest for exports in the history of our foreign trade.

For the 11 months ended with May the value of exports reached \$5,415,000,000 a decrease as compared with the \$5,717,000,000 recorded for the corresponding period in 1917. Imports for the 11 months ended with May were valued at \$2,686,000,000 an increase of \$333,000,000 compared with the \$2,353,000,000 for a similar period in 1917.

Imports of gold show a slight upward trend over previous months amounting to over \$6,000,000 in May and \$92,000,000 for the 11 months ended with May. Exports of gold amounted to less than \$4,000,000 in May and to \$188,000,000 in the 11 months.

Imports as well as exports of silver continue to increase. The imports amounting to \$7,000,000 in May and to \$65,000,000 in the 11 months ended with May, which is double the imports of a year ago. Exports of silver during May amounted to \$46,000,000 against \$6,000,000 a year ago and \$131,000,000 for the 11 months ended with May, against \$69,000,000 for the corresponding period of 1917.

A THOROUGH TEST
One to Convince the Most Skeptical
Maysville Reader.

The test of time is the test that counts.
Doan's Kidney Pills have made their reputation by effective action. The following case is typical.
Maysville residents should be convinced.
The testimony is confirmed — the proof complete.
Testimony like this cannot be ignored.
Henry S. Gallenstein, blacksmith, 124 W. Third St., Maysville, says: "My kidneys were out of order and I had pains through my back. Doan's Kidney Pills put an entire stop to the pains and my kidneys became 'oil.'" (Statement given January 9, 1912).

RESULTS THAT REMAIN
Four years later, or on November 14, 1916, Mr. Gallenstein said: "I haven't had any need of a kidney medicine since I last recommended Doan's Kidney Pills. The benefit they gave me has been permanent."
Mr. Gallenstein is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches — if your kidneys bother you, don't simply ask for a kidney remedy — ask distinctly for DOAN'S KIDNEY PILLS, the same that Mr. Gallenstein had — the remedy backed by home testimony. 60 cents at all stores. summer's demands.
Sufficient sugar will be available this summer for home canning, according to the United States Food Administration. The only requirement made is for a signed statement that the amount purchased is to be used for that purpose. Local regulations governing the maximum amount of sugar for canning allowed to individuals during the season are made by State Food Administrators.

HOW THE SOUTH CONSERVED FOOD IN 1917

Washington — Approximately 200,000,000 cans of fruits and vegetables were preserved for future use through the work of the home-demonstration agents in the Southern States in 1917, according to reports to the Office of Extension Work South of the States Relations Service.

In the regular home-demonstration work \$2,227 women did regular work in their homes for the benefit of themselves and their community clubs; 3,812 community clubs of women were organized for instruction; 73,306 girls were organized into clubs. The girls enumerated put up 12,844,513 cans of fruits and vegetables, while the women put up 21,293,677 cans. These women and girls also used the new home drying process, taught for the first time last year, and thus preserved 5,511,881 pounds of dried vegetables and fruits. They pickled or brined vegetables to the extent of 1,178,683 gallons.

In addition to this regular work the agents working in 1917 enlisted in emergency enrollment in the South of about 2,600,000 women and girls who undertook to raise gardens and especially to can and preserve for future use.

Leaders are being trained in the department's laboratories. This work will continue all summer and expert demonstrators will be turned out to carry the latest canning information into the field. District meetings of home-demonstration agents have just been held in all the Southern States to plan the summer's work and for special instruction in canning and drying. These are being followed by thorough county and community organization and instruction. In the North and West canning schools for demonstrators are being conducted at many of the State agricultural colleges and in community centers.

Every canning-club group among the boys' and girls' clubs in the North and West is organizing a demonstration team of expert canners. These teams will be informed and will give demonstrations at public meetings in their communities. Over thirty thousand boys and girls will take part in this work.

Ten manufacturers of rubber rings for glass jars have raised the quality of the rings to a standard required by the Department of Agriculture. This will be an important factor in encouraging more canning, for the assurance of good rings will mean an increased output of canned products among the home canners.

Manufacturers of glass jars, stone crockery ware, tin cans and fibre boxes are also cooperating in improving their products and in securing a sufficient supply to meet the

FIELDS FIRES HOT SHOT

At Former Rival in Letter—Resents
Attack on Loyalty.

Washington, June 27.—Representative William J. Fields today wrote a tabasco-like missive to Edgar B. Hagar, of Ashland, Ky., who recently, in a letter to A. Gordon Suiter, of Maysville, announced his determination not to contest for the Democratic congressional nomination with Fields for patriotic reasons, at the same time firing a verbal broadside at the latter. Following is the one paragraph of Field's letter to Hagar.

"In reply to that part of your unwarranted and ungentlemanly remarks which reflects upon my integrity and patriotism, I will say that your attack is only an excretion from a sore on your political skin that you have carried since the day that I defeated you for the nomination to Congress in 1910, but I defeated you fairly without indulging in mud-slinging of any character; therefore, my victory over you does not warrant your continued attacks upon my integrity and patriotism, and I respectfully request you to discontinue your attacks of that character."

Patriotic Women of Mason County, Your Call to Arms

Enter the War Baking Contest to be held during Chautauqua week, in building formerly occupied by L. M. Cavendish & Co. at corner of Second and Sutton streets.

Baking must be brought in Monday afternoon, July 1st, or not later than Tuesday noon, July 2nd. A prize of \$3 in Thrift Stamps is offered for the best sample in each class. Baking must be done according to the following recipes:

CLASS 1 YEAST BREAD

Ground Rolled Oats and 50 C Wheat Flour
1/2 cup liquid.
1 teaspoonful syrup.
1 teaspoon fat.
1/2 cup compressed yeast.
1 teaspoon salt.
1 1/2 cups wheat flour.
1 cup ground rolled oats.
3/4 cup mashed potatoes.
Run rolled oats through a meat chopper a little at a time. Make a sponge of the liquid, syrup, yeast, mashed potatoes, and enough of the ground oats to make a batter. Allow to rise until light (about one hour) and then add the salt, fat and the remainder of the oats and the flour (these doughs must be stiffer than ordinary bread dough). Knead thoroughly and allow to rise until double in bulk. Knead, mould into a loaf, and when double in bulk bake fifty minutes to one hour. Begin to hot oven; after fifteen to twenty minutes lower the temperature to that of a moderate oven and finish baking.

CLASS 2 POTATO CORN FLOUR MUFFINS

2 tablespoons fat.
1 egg well beaten.
1 cup milk.
1 cup mashed potatoes.
1 cup corn flour.
4 teaspoons baking powder.
1 teaspoon salt.
Mix in order given. Bake 4 minutes in hot oven. This makes thirteen muffins.

CLASS 3 BROWNIE WAR CAKES

No Wheat, No Butter, No Eggs, No Milk, No Sugar
3/4 cup molasses.
1/2 cup water.
1/2 cup fat.
1/4 teaspoon ground cloves.
1/4 teaspoon ground cinnamon.

FDR FULL INFORMATION CALL PHONE 106.

There will be a canning demonstration in connection with this contest under the auspices of the Home Economics Department of the Woman's Council of National Defense. Mrs. E. P. Lee, Chairman Food Production; Mrs. M. C. Kirk, Chairman Home Economics, Woman's Council of National Defense.

CHRISTIAN CHURCH PATRIOTIC SERVICES

Sunday morning at 10:30 patriotic services will be held in the Christian Church. Though this church has had a Service Flag for some time, new stars will be added to the flag and the same rehung. The families of these boys thus remembered by this church are asked to be present. The minister will give the address. This being the week of the Fourth of July is the occasion for this service. Bible School at 9:30.

"MY FOUR YEARS IN GERMANY"

"My Four Years in Germany" shown at the Washington Friday afternoon and night drew large audiences. If you have not seen the picture—don't fail to go today. It certainly is worth your time and money.

OPPORTUNITY FOR LADIES

The ladies of the city will have an exceptional opportunity next week of seeing some demonstration in how to can and preserve those things so necessary for the coming winter months. Two lady experts from Kentucky University will give daily demonstrations in the building on the Northeast corner of Second and Sutton streets all next week and every woman in this city and county is invited to be present and ask questions and receive courteous answers.

Mr. John Coughlin has received a card from his son, Dan, a member of Uncle Sam's Army, saying he had arrived safely in France.

Mr. P. T. Deering of the county, was in the city Friday and while here made this office a pleasant call.
